

Khaled Jallouli

Senior Backend Engineer at Makersite

Personal Information

Name Khaled Jallouli
Adresse Augsburg, Germany
Phone +49 1590 6431528
E-Mail jallouli.khaled@icloud.com
Date of birth September 06, 1995
Nationality German (EU) & Tunisian
Portfolio <https://khaledjallouli.github.io>
LinkedIn <https://www.linkedin.com/in/khaled-jallouli>

Professional Experience

Since May 2026 **Senior Backend Engineer, Makersite, Stuttgart, Germany**

- Contributed to the AI team, integrating AI-powered services into the core Makersite platform, including RAG-based solutions and Chemical AI.
- Worked on complex data importers, developing a deep understanding of the core product and its data flows to ensure correct and reliable processing of customer data.
- Improved importer performance through Python profiling and bottleneck analysis.
- Collaborated closely with Customer Success and domain experts to align technical implementations with customer requirements.
- Supported the investigation and resolution of P1 production incidents.
- Leveraged OpenCode for AI-assisted software development, supporting code analysis, implementation and debugging workflows.
- Used technologies: `Opencode` · `Python` · `Flask` · `RESTful APIs` · `RAG` · `AI/LLM Services` · `Graph Databases` · `Python Profiling` · `pytest`.

Apr. 2021 - May 2026 **Senior Software Engineer / Technical Lead, PreciTaste Inc., Munich, Germany**

- Led technical discussions and architecture decisions across three products with a cross-functional team of 15 (Backend, Frontend, QA, Design).
- Worked closely with Product, Customer Success, and Design teams to understand the “why” behind requirements before designing solutions.
- Planned releases and technical priorities by balancing business needs and team capacity.
- Contributed to backend architecture decisions and the evolution of the platform over time.
- Was involved in moving parts of the system from monolithic architectures to distributed microservices.
- Built and maintained microservices using Python (FastAPI, Django) deployed on Kubernetes.
- Led the shift from dedicated customer deployments to multi-tenant platforms with isolated databases.
- Redesigned services to be stateless to support multiple replicas and workers across deployments.
- Worked on tenant isolation, deployment, and caching approaches for multi-customer environments.
- Designed APIs and integrations between services across distributed systems.
- Built event-driven workflows and Kafka streaming pipelines.
- Participated in security reviews, software audits, and ISO 27001 processes.
- Used Grafana and Sentry for monitoring, observability, and troubleshooting production systems.
- Mentored engineers and participated in technical interviews for new joiners.
- Technologies: `Python` · `FastAPI` · `Django` · `Microservices` · `Distributed Systems` · `Multi-Tenant Architecture` · `Kubernetes` · `Apache Kafka` · `MongoDB` · `REST APIs` · `Docker` · `Grafana` · `Sentry` · `Jmeter` · `Blue-Green Deployment` · `Pytest` · `mypy` · `PEP8` · `ISO 27001` · `Trunk-Based Development`.

Augsburg, Germany

Entrepreneurial Projects

- Since Oct. 2025 **Founder / Product Architect (Pre-Launch)**, *FitBond & Keikoo – iOS Applications*
- Building two iOS products: FitBond (fitness and food tracking) and Keikoo (handball coaching).
 - Defining product, technical architecture, and feature prioritization from concept to implementation.
 - Building iOS applications in Swift with a focus on Domain-Driven Design principles.
 - Setting up CI/CD pipelines and automated deployments to Google Cloud using GitLab.
 - Leveraging AI-assisted development tools to accelerate implementation, and iteration cycles.
 - Technologies: Swift · FastAPI · PostgreSQL · Python · REST APIs · GitLab CI/CD · Google Cloud · Fastlane · Figma · Domain-Driven Design · Claude Code · Codex.

Earlier Experience

- Aug. 2020 – Feb. 2021 **Data Science Intern (Master Thesis)**, *KAMAG Transporttechnik*, Ulm, Germany
Optimized yard movements and automated transport-order generation by analyzing operational constraints and developing optimization models using Python, Constraint Programming, and IBM ILOG CPLEX.
- Feb. 2019 – Jul. 2019 **Software Engineer Intern**, *CP Georges Renault*, Nantes, France
Developed an embedded web interface for configuring industrial tightening controllers using C++, REST APIs, Vue.js, and NGINX.
- Jun. 2018 – Aug. 2018 **Web Development Intern**, *Leads Generation*, Concarneau, France
Developed a B2B events platform using Drupal, PHP, Twig, JavaScript, HTML, and CSS.
- Jun. 2017 – Aug. 2017 **Web Development Intern**, *BR&T*, Tunis, Tunisia
Developed the company website for CCA Tunisia using WordPress, PHP, HTML, and CSS.
- Jan. 2017 – May 2017 **Web Development Intern**, *Arzen Systems*, Ankara, Turkey
Developed a learning management platform for course management, assignments, and grades using PHP, MySQL, JavaScript, and Bootstrap.
- 2020 – 2025 **Private Programming & Mathematics Tutor**, *Superprof*
Provided individual tutoring in programming, mathematics, data science, and web development.

Education

- Oct. 2019 – Mar. 2021 **Master's Degree, Information Systems**, *Technische Hochschule*, Ulm, Germany
- Relevant Coursework: Predictive Analytics, Intelligent and Autonomous Systems, Model-Driven Construction of Complex Systems, Software Quality Assurance, and Information Security.
 - Final Grade: 1.9 — Honors: Good
- Sept. 2017 – Mar. 2021 **Master's Degree, Software Engineering**, *National School of Engineering*, Brest, France
- Relevant Coursework: Develop Interactive Applications, UML, Database Management Systems.
 - Final Grade: 15.24/20 — Honors: Good
- Mar. 2016 – Jun. 2017 **Academic Exchange, Computer Engineering**, *Middle East Technical University*, Ankara, Turkey
- Relevant Coursework: Programming, Web Development, Database Management Systems, and UML.
 - Final Grade: 3.54/4.00 — High Honor
- Sept. 2014 – Jul. 2017 **Bachelor's Degree, Computer Science and Multimedia**, *Higher Institute of Multimedia Arts*, Manouba, Tunisia)
- Relevant Coursework: Mathematics, Programming, Relational Database, and Graphic Design.
 - Final Grade: Ranked 1st in promotion — 15.81/20 — Honors: Good

Skills

- Backend Python · FastAPI · Django · Flask · REST APIs · Swift
- Architecture Distributed Systems · Microservices · Event-Driven Architecture · Multi-Tenancy · DDD
- Data PostgreSQL · MongoDB · Redis · Apache Kafka · Faust
- Cloud Kubernetes · Docker · Google Cloud · CI/CD · GitLab CI/CD · Linux · Nginx
- Quality pytest · mypy · JMeter · Python Profiling
- Observability Grafana · Prometheus · Sentry
- AI RAG · LLM Integration · Claude Code · Codex · OpenCode
- Languages Arabic (Native) · French (C1) · English (TOEIC 870/990) · German (B1) · Turkish (A2)
